ADRIYA

ADRIYA

An avant-garde interpretation of modern decoration; deep, dark tones and sparkling, elegant textures...

Adriya is like leaving the city behind and watching the sparkles of the moonlight wandering over the sea on a quiet night...

Persan's new collection Adriya; is an elegant collection with stunning, glamorous patterns coming to life with glittering textures.

Big geometric designs are complemented with micro geometric patterns and abstract patterned textures. With its dark and deep tones, Adriya's most characteristic feature is the glittering effects used in all fabrics. Black-copper, grey-silver options stand out in the collection while oxidized effect on textures catches attention.

Smooth, fine upholstery fabrics and luxurious satin drapes leave an elegant metallic feeling, while contrast monochrome effects enrich this touch.

You are invited to our stores to explore Adriya's glittering world...
