Calm, smart and confident...

Persan's new collection, Lento features sophisticated textures enriched with distinctive finishes.

Bringing a fresh perspective to the much popular plain and textured fabrics used in contemporary interiors, **Lento** offers a wide variety of unique alternatives. Distinctive upholstery fabrics with smooth and sleek surfaces in contrast to the soft, fluffy and woollike weaves are blended harmoniously together.

Elegant designs brought to life in sophisticated jacquard weaves, create a naturally relaxed look in **Lento** collection.

Draperies fabrics within the collection stand out with their gentle and natural lustre. Flowing motifs and elegant designs dominate the look with particularly one eye catching diamond pattern woven with special metallic yarns.

These beautifully woven jacquards are accompanied by a very modern optical design printed on a sleek textured satin.

Lento's colour palette is effortlessly in harmony with contemporary decoration styles, featuring calm and tranquil tones such as ivory, light grey, silver mink, taupe, orion blue, olive khaki and plum.
