SUN CITY

SUN CITY

This collection is like opening the pages of a children's book and wandering through their fantastic imagination...

Persan's new collection SUN CITY is a kid's collection in a fairy tale mood.

Designed with a broad spectrum for children with different interests in mind, SUN CITY consists of so many colorful and fun themes.

As being mainly a print collection, all magical patterns in the collection are printed on linen-mix fabrics. As they can be used both for drapery and upholstery, prints are designed for various themes with multiple combinations and multiple options. Considering the small-scale furniture used in children's rooms, natural upholstery fabrics are designed in little patterns which are compatible with all themes. Multicolored polka dot embroidered sheer and monochrome perforated sheers are complementary fabrics in SUN CITY.

Sun City

Naming the collection, this group is made up of fun patterns in rainbow colours with many different tropical birds. The multicolored panel drapery with a skyline silhouette is among the most striking fabrics of this group.

Farm Life

Farm animals are rendered in linear motifs and pastel tones with a Scandinavian touch in this group. Drawing attention with its simple lines, Farm Life features alternatives in light gray, beige, pastel blue and pink tones.

Aqua

Arctic animal patterns are rendered by a technique that creates a sense of origami; polar bears, whales and cute penguins. In this group, of course, ice blue, dark blue and aqua tones of the deep sea are preferred.

Jungle

With elaborately stylized African animal figures rendered in safari colours, this group has an ethnic mood.

Marin

This marine-themed group with sailboats, lighthouses and corals are designed in marine colours for little sea-lovers.

Ballerina

With its ballerinas dancing magically in the sky, this group is very romantic with pink hues.
